

# HOOP

Specification sheet

# HOOP

Hoop è un proiettore versatile, pensato per valorizzare vetrine e dettagli luminosi minimali, dove la luce diventa protagonista.

Il sistema a calamita permette di posizionare Hoop in base alle necessità, garantendo un'illuminazione precisa esattamente dove serve.

Può essere installato sia a incasso che a binario.

Hoop is a versatile spotlight designed to enhance shop windows and minimal lighting details, where light takes center stage.

The magnetic system allows Hoop to be positioned as needed, ensuring precise illumination exactly where required.

It can be installed both recessed and on a track.
